

MEDICAL DOCTOR PROGRAM (MBBS)

KYRGYZ STATE MEDICAL ACADEMY (KSMA)

BISHKEK, KYRGYZSTAN

- Global Recognition
- Diverse Student Community
- Comprehensive Clinical Training
- Medical Research Exposure
- Strong Alumni Network

COURSE HIGHLIGHTS:

- Exposure to modern medical technologies
- Internship opportunities in affiliated hospitals
- Advanced simulation labs for practical learning
- Strong emphasis on patient care and clinical skills
- Special focus on FMGE, USMLE, and PLAB Training from 1st Year
- Latest National Medical Commission (NMC) Compliant MBBS curriculum

GLOBAL MEMBERSHIPS & COLLABORATIONS

Dr. Phani Bhushan Potu,
Founder and President
MEC, ISM EDUTECH

WELCOME MESSAGE

Dear Students and Parents,

It is with great pride and enthusiasm that I welcome you to the MD Program at KSMA, a premier institution shaping the future of medical education and healthcare. As the flagship of medical education and research in the Kyrgyz Republic, KSMA is dedicated to nurturing the next generation of skilled and compassionate doctors.

Our commitment goes beyond academics—we focus on holistic learning, integrating rigorous medical training with cutting-edge research and hands-on clinical experience. We aim to empower our students with the knowledge, skills, and ethical foundation needed to excel in the ever-evolving field of medicine. At KSMA, we believe in creating a supportive and enriching environment where students can thrive and realize their dreams of becoming globally competent medical professionals. We are honored to be a part of this transformative journey with you and look forward to witnessing your success in the medical field. Welcome to the KSMA family!

ISM EDUTECH
EDUCATION ENLIGHTEN EMPOWER

ISM EDUTECH PVT LTD, INDIA

We are a pioneer in revolutionizing how medical professionals are created through learning and stay up-to-date on the latest advances in their field. By providing programs that are designed on the strong structural framework supporting a comprehensive and interactive learning experience, we aim to improve the quality of care and patient outcomes.

We have catered to the aspirations of more than 14,000 students to become great doctors and made it a reality because of our strategic and vast reach. India's premier ISO 9001:2015 certified medical and healthcare education facilitator (B2C), developer (B2B, D2C) and propagator and is committed to providing solutions and helping its consumers such as Universities and students by partnering and owning the best medical universities and relevant logistics solution providers across the globe.

ABOUT PROGRAM

The training of students takes place at the clinical bases of 56 departments with a total number of staff of more than 500 people. The faculty trains medical specialists in the program of General Practitioner. A general practitioner is a broad medical specialist who has the skills of a narrow specialist.

After graduation from this program, a graduate can undergo postgraduate training as a general practitioner, or choose to train in narrow specialties, such as: therapist, surgeon, neuropathologist, obstetrician- gynecologist, traumatologist, otolaryngologist, oculist, oncologist and others.

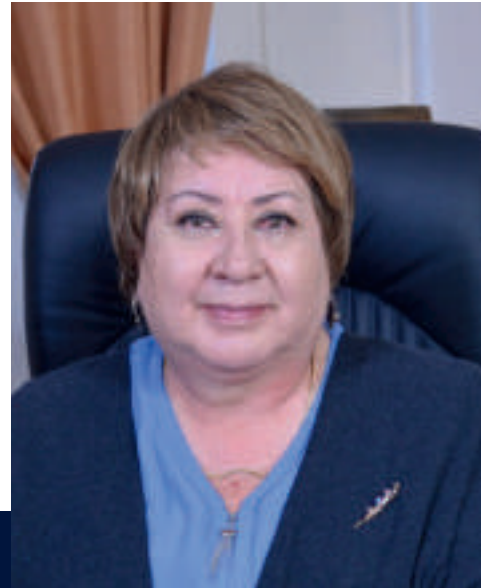

The faculty trains foreign students who will become qualified specialists in the specialty of General Medicine in order to continue their professional activities abroad. Training of foreign students is conducted at 56 departments. The teaching staff is a highly qualified personnel, many of whom have extensive experience in teaching. Total 140 teachers work at the faculty, of which 10 are Doctors of Medical Science and 80 are Candidates of Medical sciences, 9 Professors and 39 Associate Professors. Currently, more than 3,744 foreign students from 26 countries, such as, India, Nepal, Jordan, Somalia, Turkey, Palestine, the USA, Germany, Egypt, South Korea, study at the Faculty. A separate student campus named after Prof. I.Akylbekov was set up and equipped for foreign students. The campus is located in a landscape place called Tash-Dobo near the Bishkek.

Indira Orozobaevna Kudaibergenova
Rector of Kyrgyz State Medical Academy

RECTOR'S MESSAGE

Dear Students and Parents,

It is with great pride and enthusiasm that I welcome you to the MD Program at KSMA, a premier institution shaping the future of medical education and healthcare. As the flagship of medical education and research in the Kyrgyz Republic, KSMA is dedicated to nurturing the next generation of skilled and compassionate doctors.

Our commitment goes beyond academics—we focus on holistic learning, integrating rigorous medical training with cutting-edge research and hands-on clinical experience. We aim to empower our students with the knowledge, skills, and ethical foundation needed to excel in the ever-evolving field of medicine.

At KSMA, we believe in creating a supportive and enriching environment where students can thrive and realize their dreams of becoming globally competent medical professionals. Welcome to the KSMA family!

OUR MISSION

The mission of KSMA, as the leading institution for medical education and research in the Kyrgyz Republic, is to enhance public health and improve quality of life. We are committed to meeting the intellectual, cultural, and ethical development needs of society by providing high-quality, continuous training for medical and pharmaceutical professionals. Our approach integrates education, research, and clinical practice, ensuring excellence in healthcare to address the challenges of the 21st century.

HELLO FROM KYRGYZSTAN

Kyrgyzstan, a hidden gem in Central Asia, is a land of stunning landscapes and rich history. Surrounded by the Tien Shan mountains and the breathtaking Issyk-Kul Lake, it's a haven for outdoor enthusiasts. The country has a deep nomadic heritage, once a key stop on the ancient Silk Road. Known for its warm hospitality, Kyrgyzstan offers travelers a unique blend of adventure and culture. Visitors can explore vast mountains, ancient petroglyphs, and experience traditional nomadic life. The Kyrgyz people, proud of their history and traditions, are known for their generosity. With its vibrant festivals and horse riding culture, Kyrgyzstan is an unforgettable destination. Whether trekking or relaxing in yurts, the country's natural beauty and charm never fail to captivate. It's a perfect escape for those seeking an authentic and adventurous journey.

HISTORY

1939

The establishment of the first Kyrgyz medical institution by the Resolution No. 517 dated April 16, 1939 of the Council of People's Commissars of the Kyrgyz SSR

1996

By the Decree of the President of the Kyrgyz Republic, the Kyrgyz State Medical Institute was transformed into the Kyrgyz State Medical Academy.

2008

The Kyrgyz State Medical Academy was named after the great Kyrgyz cardio surgeon Isa Akhunbaev.

2021

Kyrgyz State Medical Academy awarded with the national significant "Dank" award for special services to the state

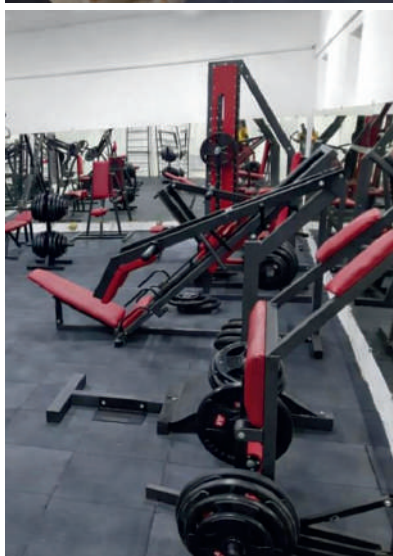

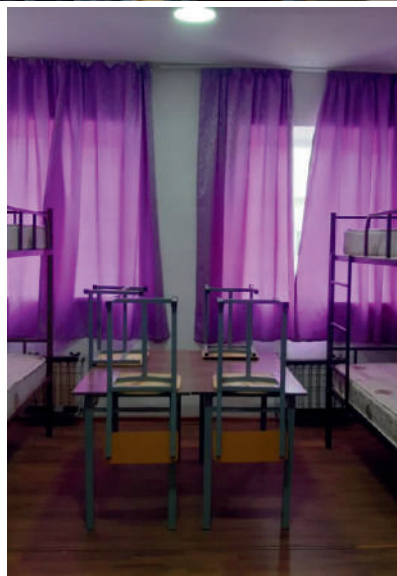

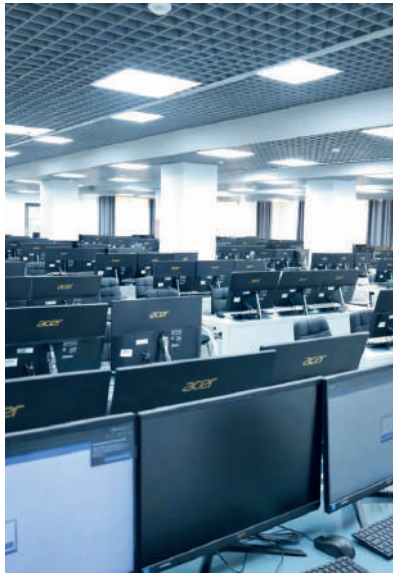

2022

By the Decree of the President of the Kyrgyz Republic, the Kyrgyz State Medical Academy was granted a Special Status

COLLEGE PROGRESS

KSMA undertakes Its own Development Strategy for 2023–2027 and Action Plan for the implementation of this strategy guide KSMA’s actions on the path of its progress.

KSMA ranked 1st among medical institutions of the country and recognized as the high-quality institution by international accreditation organization IAAR

CAMPUS & DEPARTMENTS

Centers of knowledge, Science & Research

Center for Clinical Skills Development and Knowledge Assessment

The Center was established in 2013 with the financial and technical support of the Swiss Embassy in Kyrgyzstan. At the Center, students, residents and interns are trained in clinical skills on simulators and dummies. Also, students pass their testings (computer testing and OSCE), entrance, transfer and final exams.

Intersectoral Educational and Scientific Center for Biomedical Research

It is a research and educational center of the KSMA and the Laboratory of Screening and Molecular Modeling of Biologically Active Compounds (BAC) of the National Academy of Sciences. The Center integrates university and academic science; combine the efforts of scientific and logistical potential to develop fundamental problems of biology and medicine. It has three labs: PCR, biochemical and pathomorphology.

Educational, medical and scientific Medical Center

It is the scientific, clinical and educational base of KSMU. The medical center provides the population with a wide range of medical services, including surgical operations, diagnostics of internal organs and dentistry.

Diagnostic Medical Center

This is the educational, scientific and clinical base of the university. Today, the center provides diagnostic services: ultrasound; REG; Gastroscopy; colonoscopy; X-ray examination. Also, represents the services of an optometrist, ENT, gastroenterologist, dermatologist, endocrinologist, physiotherapist.

Dental Educational, Scientific and Clinical Center

It is an educational and scientific clinical base for professional training of students of the Faculty of Dentistry and postgraduate training of dentists (interns, clinical residents, postgraduates)

Center for Distance Learning and Advanced Training

The Center implements distance learning for clinical residents of KSMA undergoing residency in the regions of the Kyrgyz Republic. Also, provides technical facilities for teachers and other medical institutions to master additional skills through training in advanced training programs; to conduct online seminars, video conferences and webinars.

Pre-University Training Center

The center's activities are aimed at intensive training of lyceum students and students in the following subjects: chemistry, biology, mathematics, Russian and Kyrgyz languages for the subsequent successful passing of the national ORT test. It has in its structure a Lyceum (grades 10-11) and a department of pre-university training for foreign citizens with English as the language of instruction.

Foreign Language Learning Center

The Center was established in 2016 with the support of the European TEMPUS program within the framework of the project "FLEPP: Teaching foreign languages for professional purposes". Currently, the Center provides training in English, German and Turkish languages for students and teachers of KSMU and all other interested persons.

Scientific Activities

Scientific activity in KSMA is guided by the KSMA Development Strategy, which defines the key points of science improvement. The main idea is to harmonically combine science and education so that the last will be determined by the latest scientific achievements in medicine and interdisciplinary fields.

Four defined main scientific topics for research in KSMA:

- Alpine medicine in Kyrgyzstan
- Public health protection
- Diagnosis, prevention and treatment of major infectious and non-communicable diseases (including surgical) on the nation
- Optimization of pharmacotherapy of socially significant diseases in Kyrgyzstan.

FACTS & FIGURES

168 interinstitutional agreement

Partners from 30 countries of the world

Membership in 12 International Organizations

3744 international students from 26 countries

200 outgoing academic mobilities of students and staff

International cooperation

KSMA sets up a stable network of partners over the counties of the world like all CIS countries, South Korea, Japan, India, Pakistan, Saudi Arabia, Turkey, United Kingdom and EU states (Poland, Germany, France, Spain, Romania, Lithuania, Finland)

We successfully implement mobility projects within various programmers including Erasmus+; joint scientific and capacity-building projects:

- ▶ **Jarkyn Kyrgyzstan** - Kyung Hee University and KOICA (South Korea)
- ▶ **Smart4TB** - USAID and John Hopkins University (USA)
- ▶ **Staff Training Projects** - Green Shoot Foundation (UK)
- ▶ **Certified Examination for Pharmacists** - JICA (Japan)
- ▶ **Clinical research projects** - INOVIEM Lab (France)
- ▶ **CBHE and Mobility projects** - Erasmus+ (EU)
- ▶ **Expert Assistance Projects** - Senior Expert Service (Germany)

We registered and interact with international organization in the field of higher education like World Federation of Medical Education, European Association of Medical Education AMEE, International Association of Universities and etc.

The key points of international cooperation development are:

- ▶ Widening an academic mobility network
- ▶ Development of double-degree programs
- ▶ Increasing the number of joint research projects
- ▶ Attracting investment in education, science and infrastructure improvements

35 scientific clubs

Sport events

Annual ceremonial
events

Volunteering

Student life at KSMA is a rich, friendly, educational and motivating environment where every student will find their place and purpose. Students actively organize and conduct creative events, dedicated to special dates and holidays, as well as charity evenings and fairs. Students from 27 countries study at KSMA, and therefore highly honor the traditions of each other celebrate the national holidays of all these countries, including the local holiday Nooruz.

International scientific and practical Olympiads, Pediatricians Games, sports competitions are events held annually. Our students often participate in international educational and sports events abroad and are awarded prizes.

KSMA students are developing comprehensively by membering in creative clubs, dance groups, ensembles of komuzists and chopo-choor, vocal collectives.

Also, our students' life is famous for its grandiose events "Dedication to students", "Golden Mean", "Mr. and Miss KSMA" and "Solemn graduation parties"
